Job Type Hybrid

**Location** Cunard Building

Disclosure and barring

service (DBS)

Not required

Job Evaluation Ref No A8863

## **Job Purpose**

The Programme Manager will provide leadership and assurance in the development, implementation and delivery of projects and programmes undertaken by the Regeneration team. They will co-ordinate a number of projects and programmes to deliver economic and strategic impact and will ensure project and programme teams are adhering to robust project assurance processes.

The role will oversee complex projects and programmes where:

- The programme may have more than one sponsor and the Sponsor(s) will be at Director/Senior Executive Manager level.
- The programme resources may span across a number of Directorates
   /Divisions within the organisation and are likely to consist of internal and
   external staff.
- The programme will have a number of senior stakeholders, including senior managers, across different divisions and support functions, and external funders.
- There may be a variety of partnership routes to achieve technical or business capability to deliver the changes.
- Visibility will be vital, and it will be key to report complex issues in a simple,
   well-organised format in order to gain overall buy-in and support.
- The programme will need clear and concise communications at all levels of the organisation as well as externally.

#### **Directly Responsible For:**

Project Managers within team

#### **Directly Responsible To:**

Director of Regeneration

### Main Areas of Responsibility:

- Shaping and definition of programmes: Ensure there is clear agreement on the required outcomes and the associated business impacts. Shape the programme for smooth implementation by appropriately structuring and sequencing the initiatives required to achieve the outcomes.
- Planning: Plan at the level appropriate to the complexity of the programme.
   Use relevant planning techniques to achieve the stated outcomes and

- structure an appropriate set of initiatives to be delivered. This could include programme transition state planning through to project delivery schedules.
- Assurance: Create and manage robust project and programme assurance
  and resilience across the team, ensuring consistency of record keeping, clear
  auditability, with critical document retention, and support the team with
  creation of standard programme and project management documentation
- Budget management: Plan, monitor and control revenue and capital budgets, in compliance with regulations, to meet the targets set by the Director.
- Robust estimating: Create and manage robust estimates throughout the programme lifecycle and get stakeholders to agree their accuracy.
- Risk management: Appropriately articulate and manage the overall risk
  exposure across the programme so that there is a common understanding by
  all key stakeholders. Makes appropriate trade-offs to reduce the risk exposure
  and increase confidence that the programme will be successful.
- **Issue management:** Proactively identify and resolve issues in a timely manner.
- Benefits/outcomes management: Effectively identify and manage an outcomes-led approach to programme shaping, making trade-offs where required, to ensure an optimal set of outcomes and benefits are articulated and achieved.
- Reporting: Ensure timely, accurate and complete reporting processes are adhered to, collating information from project and programme teams as necessary.
- **Testing and acceptance:** Ensure testing approaches are effective to produce the required outcomes as defined at the outset.
- Stakeholder management: Ensure that the view of success of all key stakeholders is determined and agreed at the outset, and considered and managed on an ongoing basis. Maintain stakeholder expectations in line with the realistic forecast for the project.

- 3<sup>rd</sup> party management: Appropriately engage and manage the performance of all 3<sup>rd</sup> parties to optimal levels.
- Business and cultural awareness: Have a high awareness of politics and business change taking place across the organisation, as well as external impacts on the programme.
- **Communication:** Pro-actively communicate with clarity, gaining buy-in and creating positive impacts. Be decisive and confidently deliver difficult messages at all levels in the organisation.

### **Supervision and Management Responsibility:**

- The role will involve line management responsibility for Project Managers within the Regeneration team.
- Will be responsible for supervising programme team members including coordinating operational tasks, coaching and mentoring, and providing feedback on performance.
- Will support senior staff via matrix management to manage performance and behavioural issues effectively.

### **Budget and Financial Responsibility:**

- Being fully accountable for managing the council's resources well and complying with statutory requirements. This includes managing time, avoiding unnecessary waste, reusing and recycling resources to reduce personal impact.
- Set, monitor, and remain within project budget whilst challenging the team to deliver increased efficiencies.
- Explores different options for funding and income generation.

## **Social Value Responsibility:**

 Drive for social value through all activities, ensuring wider social, economic and environmental benefits for the council, residents and communities.

## **Physical Demands of the Job:**

 The job would include using a computer and siting at a desk for prolonged periods of time.

## **Corporate Responsibility:**

- Contribute to the delivery of the Council Plan.
- Delivering and promoting excellent customer service, externally and internally.
- Commitment to customer excellence by dealing with customer feedback, including complaints, and learning from feedback in the drive for continuous improvement.
- Making the council a great place to work, living the council's values, actively
  engaging in regular communications including team meetings, undertaking
  training as required and being responsible for managing own performance.
- Develop the City Council's commitment to equal opportunities and to promote non-discriminatory practices in all aspects of work undertaken.
- To ensure that all work functions are undertaken in accordance with health and safety legislation, codes of practice and the City Council's safety plan.

### **Competency Framework:**

We operate a competency framework, a set of core behaviours which define how we are expected to approach our work, how we perform in certain situations and how we treat each other. Each competency details the standards of behaviours and skills

required by all staff and this in turn supports delivery of our aim and our council plans linking them together with our values.

The post holder will be required to demonstrate the ability to perform at the following competency level 2.

The competency framework can be found here.

This job description is not intended to be either prescriptive or exhaustive. It is issued as a framework to outline the main areas of responsibility.

# **Person Specification**

This role may suit you if you:

- Have a high preference for:
- Focusing on outcomes
- Managing complex stakeholder groups
- Working in highly complex and political environments
- Working in an organisation where controls and processes may still be being put in place
- o Working on high profile programmes
- Providing strong leadership, inspiring confidence in others
- Developing staff and maintaining contacts and networks
- Are comfortable with:
- Uncertainty and unknowns
- Working in ways that require high levels of flexibility and adaptability.

The Council's PMO has a Project and Programme Management skills matrix which sets out the skills and capability level required for each of our roles. The following personal specification is based on this matrix. In your application you should demonstrate how you meet the required capability level of each skill. The capability level required is referenced next to the person specification criteria where appropriate. These are:

- Awareness: You recognise the skill and may be able to provide limited support to others in providing the skill.
- Proficiency: You can explain the skill and have experience of demonstrating the skill in simple project situations.
- Advanced: You have wide experience of demonstrating the skill, including in more challenging project situations. You can evaluate, challenge and improve

- the effectiveness of the use of this skill. You can advise others on how to use the skill and improve their capability.
- Mastery: You have wide experience of demonstrating the skill in challenging project and programme settings. You can evaluate, challenge and improve the effectiveness of the use of this skill. You can provide expert advice on the skill and champion the use of the skill outside of your direct responsibility.

Assessment methods used: I = Interview, P = Presentation, A = Application, E = Exercise, T = Test, AC = Assessment Centre
