## Job Purpose

ICT Technical analyst providing technical support to a high-quality standard using IT tools and technologies. You will log/Triage and resolve customers IT faults and Requests whilst managing incident resolution, returning customers services to normal as quickly as possible with minimum disruption to the business. Working to agreed OLA/SLAs to ensure levels of availability and service are maintained.

### Directly Responsible For:

The first point of troubleshooting and fulfilling requests for all incoming ICT related issues that are raised by the userbase.

### Directly Responsible To:

ICT Service Centre Manager

## Main Areas of Responsibility:

- Agile/home working analyst providing technical support for the organization's userbase. Triaging all faults and requests whilst aiming to resolve as many as possible at a first point of contact restoring users' services
- Collaborate with other teams of the IT department aiming to divert the calls and requests that are required to be investigated at a further point of contact
- Fully proficient in the use of telephony and ICT systems typically used in a large customer IT Service Environment
- Assisting customers to access ICT support services, via self-service, email, and telephony
- Develop the IT Service Centre Knowledge Base
- Attend face to face meeting with users as and when required within Cunard Building

- Manage personal objectives and quality standards. Demonstrate teamwork and ownership of the Customer experience
- The ability to work without close supervision. Own, schedule, manage and implement assigned incidents and requested fulfilment tasks
- Be fully proficient in the induction, training, mentoring and professional development of colleagues as appropriate and to support team members in ensuring that objectives and targets are met
- Customer Service Delivery: Provides 2nd Line support and service as first point of contact
- To reactively respond to Customer enquiries through to resolution, adhering to the agreed KPIs and OLA/SLAs and quality standards
- Participate in high impact incident chats in order to collaborate across the IT department aiming to restore the service as quickly as possible
- Classification to determine severity and impact of incident and qualification whether major incident and/or requires intervention of problem management process
- Work between 3rd party suppliers and Customers to co-ordinate the resolution of incidents and isolation of faults. End to end incident management of 3<sup>rd</sup> Party Suppliers, asserting their contractual SLA
- Ensure regular and meaningful communication is maintained with the Customer when dealing with a fault or issue
- Deal appropriately with sensitive and confidential information
- Communication and reporting responsibilities: to liaise with both internal and external Customers at all levels, sensitively and efficiently logging/resolving or escalating enquiries
- Demonstrate excellent Customer care skills e.g. owning, driving, communicating, with Customers through inbound/outbound calls leaving Customers delighted with the 2nd Line incident resolution experience

- Maintain and correctly update Customer information on the relevant systems for data capture
- Supporting ICT Service in customer communication during major incidents and disaster recovery
- Polite and professional always in possibly difficult, stressful and challenging situations
- Other Ad hoc duties as required by the line management of ICT Technical Management

### **Supervision and Management Responsibility:**

- No Supervisory or Management Responsibilities

### **Budget and Financial Responsibility:**

- Being fully accountable for managing the council's resources well and complying with statutory requirements. This includes managing time, avoiding unnecessary waste, reuse and recycle resources to reduce personal impact

### **Social Value Responsibility:**

- Drive for social value through all activities, ensuring wider social, economic and environmental benefits for the council, residents and communities

### **Physical Demands of the Job:**

- The job would include using a computer and sitting at a desk for prolonged periods of time

## Corporate Responsibility:

- Contribute to the delivery of the Council Plan
- Delivering and promoting excellent customer service, externally and internally.
- Commitment to customer excellence by dealing with customer feedback, including complaints, and learning from feedback in the drive for continuous improvement
- To understand and deliver on Liverpool City Council's 'Our Vision and Our Values' aligning individual, team, and service objectives.
- Making the council a great place to work, living the council's values, actively engaging in regular communications including team meetings, undertaking training as required and being responsible for managing own performance
- Develop the City Council's commitment to equal opportunities and to promote non-discriminatory practices in all aspects of work undertaken
- To ensure that all work functions are undertaken in accordance with health and safety legislation, codes of practice and the City Council's safety plan

## Competency Framework:

We operate a competency framework, a set of core behaviours which define how we are expected to approach our work, how we perform in certain situations and how we treat each other. Each competency details the standards of behaviours and skills required by all staff and this in turn supports delivery of our aim and our council plans linking them together with our values.

The post holder will be required to demonstrate the ability to perform at the following competency level 1.

[The competency framework can be found here.](#)

This job description is not intended to be either prescriptive or exhaustive. It is issued as a framework to outline the main areas of responsibility. You will be expected to carry out any other duties that may reasonably be required in line with your main duties and changing priorities of the organisation.
